## Miracles are Happening!

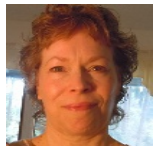

Miracles are happening all over the world.

Fish are returning in vast numbers to waters where they hadn't been seen in more than 50 years. Toxic stream water suddenly becomes pure. Barren fruit trees begin producing fruit year round. Local people plant taro but when it is time to harvest the crops they find they also have tomatoes, peppers and cucumbers. Where is this happening: in the Islands of Fiji. ### Healed After 18 Years

I was house bound with illness for 18 long years. I had one of those mystery illnesses that the doctors couldn't seem to diagnose. Though I diligently did all I could to turn my health around through diet, supplements, acupressure, various health equipment, etc. I was unable. Those things helped but did not heal me completely. Of course, all during this time I was praying. My first prayer didn't result in healing, nor the second or the third, or the thirtieth. It was a journey of discovery and understanding. Eventually I was able to pray in faith and be healed; and I did, and I was. That was in 2006 and I am still going strong. I now endeavor to help others learn how to pray in faith and be healed.

**Matthew 8:1-4** When Jesus came down from the mountain large crowds followed Him, and a leper came to Him and bowed down before Him, and said, "Lord, if You are willing, You can make me clean." Jesus stretched out His hand and touched him, saying, "I am willing: be cleansed." And immediately his leprosy was cleansed.

## Injured Marathon Runner Healed

The 2011 Eugene May Marathon was Dr. Diann's ninth marathon. She was running well, but at mile 18 she experienced a stabbing pain in her Achilles tendon. She had never before had an injury when running. Determined to finish, she completed the remaining 8.2 miles of the 26.2 mile race. Her husband is a doctor, but she didn't want surgery. Diann is a seasoned "prayer," and preferred to pray for a new foot. She believed Jesus who taught that she could "have whatsoever she desired when she prayed." As days passed and healing didn't come, she inquired of The Lord. He told her, "Adjust your love walk, and forgive," and, "Enter My rest of faith." She immediately obeyed. Her foot still hurt, she didn't *feel* healed, and she knew she didn't *look* healed (walking on crutches and wearing a boot) but when the Lord told her to, in faith she stood up and jumped full-force on her injured foot and there was no pain! She was instantly healed! She is back running and praising God and rejoicing in the Lord because of her new foot.

when you pray believe that you have received them  
and they shall be granted to you."

**Mark 11:23-24** "Truly I say to you, whoever says to this mountain, 'Be taken up and cast into the sea,' and does not doubt in his heart, but believes that what he says is going to happen, it will be granted him. "Therefore I say to you, all things for which you pray and ask, believe that you have received them, and they will be granted you.

## Scoliosis Healed

I was diagnosed with Scoliosis of the spine two years ago by the physical therapist that I was seeing for posture problems. I asked one of my pastors to pray for me. When Pastor Daryl prayed for me, he said he could feel my spine starting to straighten. When I went back to my therapist he asked me how my spine had gotten straightened up. I said that God straightened it up. I am so thankful to be healed.

## Shoulder Healed

In the fall of last year I had damaged my shoulder badly at work. I am sure that my rotator cuff was torn. I had suffered this injury before, earlier in my life (although milder) and knew well the pain and limited movement

associated with it. This time it was much worse. I had been in serious pain for days, and could not lift my arm above my shoulder without excruciating pain. I had tossed and turned in bed all night Saturday night,

and hardly slept at all. I had been complaining to my wife that my shoulder was messed up bad this time.

On Sunday morning Pastor Brian Cuff prayed over the congregation as usual, before starting into his Sunday message. As he was finishing his prayer, he said that someone in the group was suffering severe shoulder pain. He looked my way and asked if it was me. I nodded and said, "Yes." He called me to the front and asked others to help and lay hands on me.

As he and the others began to pray, I felt my shoulder being lifted up and the power of the Holy Spirit flowing into my body. It was amazing! When Pastor Brian finished praying, he asked me how my shoulder felt. I immediately raised my arm straight up over my head and felt no more pain. I did a full day of work the next day, lifting sheets of plywood above my head, with no pain. Now, a year later, I have not even a hint of the injury that was there before prayer.

Praise God for His healing Spirit. I believed that I would be healed and I was, by the Glory of God.
