

I went through so much sadness and terror in 2006, 7 and 8 with catastrophic illness, the resultant PTSD and a deep spiritual crisis, almost losing my faith. I didn't know Donna Crow personally, just knew her as the moderator and occasional contributor to one of my health groups on the Internet. Then she mentioned that she had experienced miraculous healing through faith and my interest was piqued, so I called her one day. The rest, to me, is history, as her kind words and prayers actually did make a difference. She began to offer free telephone classes to teach anyone and everyone how she was healed through faith in Jesus Christ.

I attended every one of the classes, then downloaded them and made CD's for listening to in my car. Just as Donna describes her own slow but steady progress through the study of God's Word, I began a slow but sure recovery of my faith in a way that was joyous, fun and truly healing. By applying what I learned in her classes, I was able to go from very ill, depressed and stuck in a house I did not want to be in, in a State I didn't want to live in--to moving back to my home state where I wanted to live, and establishing and running a solar, off grid, organic farm/ranch.

Donna has always been there when I've needed her; a kind word, a prayer left on my message service when we couldn't connect immediately--she is a true "Pay It Forward" kind of gal.

Fountain of Life Healing School is a ministry of Donna Crow and Katherine Register of Eugene, Oregon.

Donna is a graduate of the Global College of Natural Medicine in Santa Cruz, CA. Her main certification is as Holistic Health Practitioner, however, she also maintains certificates in Lymphology, EFT, and Qi-Jo Acupressure.

Katherine has an Associates Degree in Science & Biology through Scottsdale Community College in Scottsdale, AZ. Studying Speech, Audiology, and Environmental Psychology at Arizona State University. She has extensive experience as a hospital chaplain and is a gifted intercessor.

Donna and Katherine each have over thirty years experience in the study of natural health, acquiring a great deal of knowledge regarding the human body, and natural ways to support it's efforts to sustain good health.

As Christian's, both Donna and Katherine have a strong foundational understanding concerning healing as one of the benefits of being a believer in Christ. Both have experience with miraculous healing through prayer and are skilled at praying with others for healing.

"I was diagnosed with MRSA and I was covered with it from head to toe. I was "incurable" and near death when I found FOLHS. They directed me toward clinical research stating that raw garlic was effective against MRSA. Based on that research I was able to put together my own food based treatment and I am now free of MRSA. I believe I am alive today because of the help I received in personal coaching sessions at FOLHS.*

PREVENTION

In addition to helping others in their search for solutions for existing issues we have a strong focus on prevention.

* MRSA kills more Americans per year than HIV/AIDS.

It has been said that,

"An ounce of prevention is worth a pound of cure."

We have also learned that,

"\$10 of prevention can be worth a \$1000 of cure."

According to the US Government (and anyone who is paying attention), 6 of the 10 major killing diseases in the US are preventable. Their report goes on to say that when not prevented, and diabetes, heart disease, cancer, high blood pressure, arthritis and glaucoma occur, there is little that medical science can do to restore a person back to good health. It is clear that we must become prevention minded.

Relief may be a simple phone call away!
